Introduction

At **EstraMyPyme**, we aim to provide you with an innovative and accessible tool to evaluate and optimize your business strategies. Our platform is designed for both individuals and companies of sizes and industries, offering detailed analyses and interactive graphs to facilitate informed decision-making. Below, you will find an interactive guide explaining the purpose of each feature.

Software Benefits

- Saves time
- Automates data registration and collection processes
- Provides data análisis
- Simplifies the work of advisors

Application Presentation

1

The application features a landing page that provides a brief description and information about the EstraMyPyme methodology..

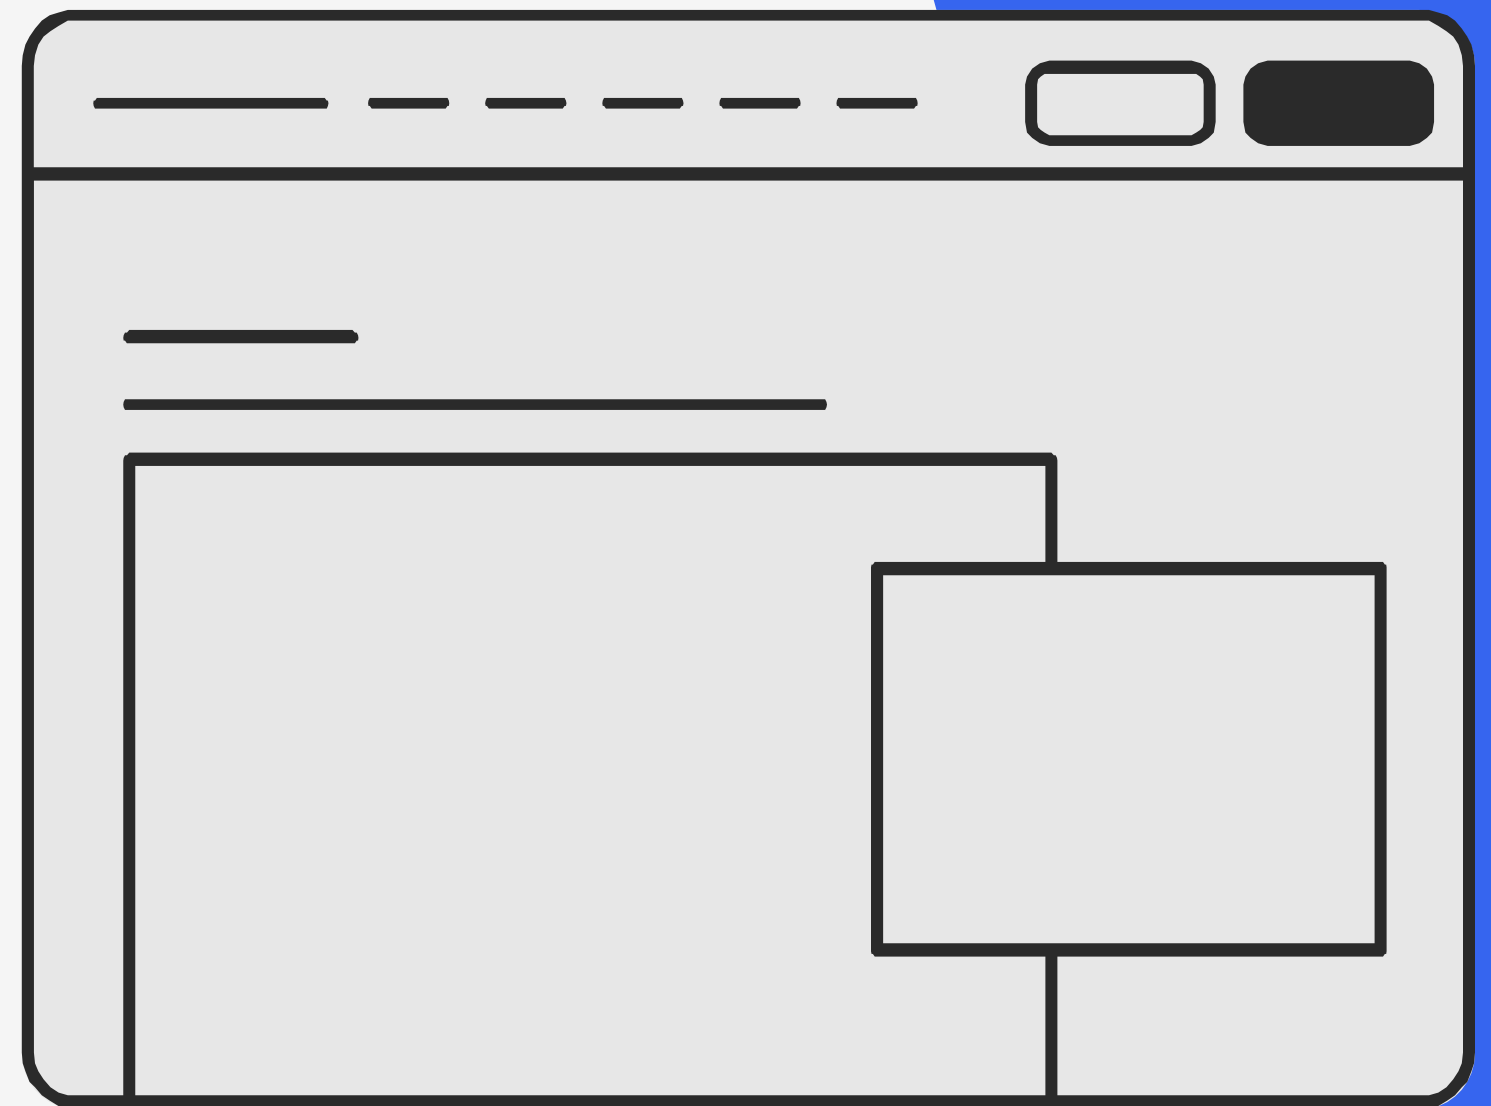

2

It includes login and register sections that allow users to register on the platform by providing basic information and access it intuitively. The register section offers an interactive help feature to guide users in selecting the correct options.

3

Two dashboard sections are available:

- One for companies, allowing them to conduct tests and view results.
- Another for administrators, providing access to data visualization and graphs based on the information collected from registered companies.

Landing page

Redirection to University Page

Clicking here allows users to access the Eafit university page.

Login or Register

Clicking on these buttons navigates to the login or register sections.

Configuration

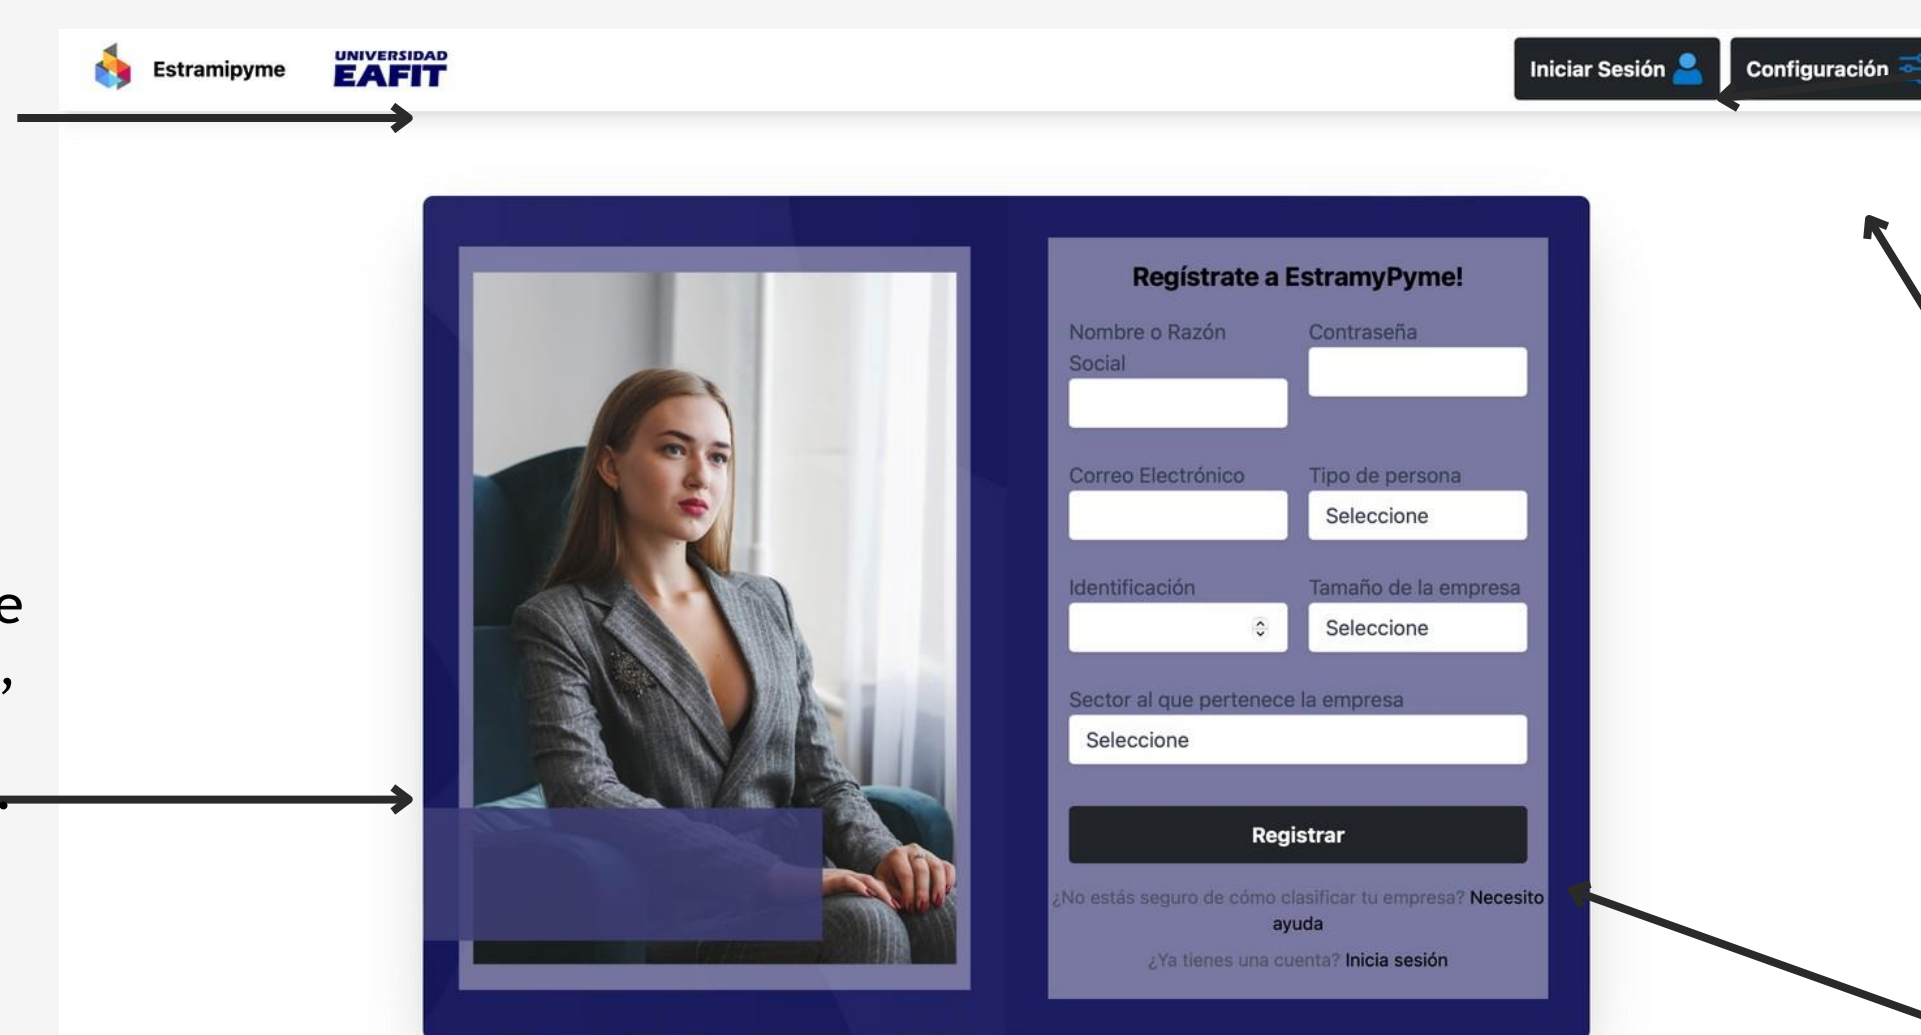

Users can configure their preferences such as toggling between light and dark modes.

Register

Registration Form

In this section, users must enter the requested information. The form includes assistance to choose the company size, user type, and industry, offering descriptions for each option.

The screenshot shows the Estramipyme registration interface. At the top, there are logos for Estramipyme and UNIVERSIDAD EAFIT, and navigation links for 'Iniciar Sesión' and 'Configuración'. The main registration form is titled 'Regístrate a EstramyPyme!' and contains several input fields: 'Nombre o Razón Social', 'Contraseña', 'Correo Electrónico', 'Tipo de persona' (a dropdown menu), 'Identificación', 'Tamaño de la empresa' (a dropdown menu), and 'Sector al que pertenece la empresa' (a dropdown menu). A 'Registrar' button is located below these fields. At the bottom of the form, there are two links: '¿No estás seguro de cómo clasificar tu empresa? Necesito ayuda' and '¿Ya tienes una cuenta? Inicia sesión'. Annotations with arrows point to specific parts of the interface: one points to the 'Configuración' link, another points to the 'Registrar' button, and a third points to the help link at the bottom.

Login Form

Users enter the requested data in this form to authenticate and access the company dashboard with their credentials.

Configuration

Users can configure preferences, such as toggling between light and dark modes.

User Assistance

Clicking on this section directs users to a help system for completing their data if they are unsure about what to input in the fields.

Help Menu

Enviar

RESULT I NEED HELP

This menu helps users fill out the required registration data. By answering a few questions, the necessary fields are completed automatically.

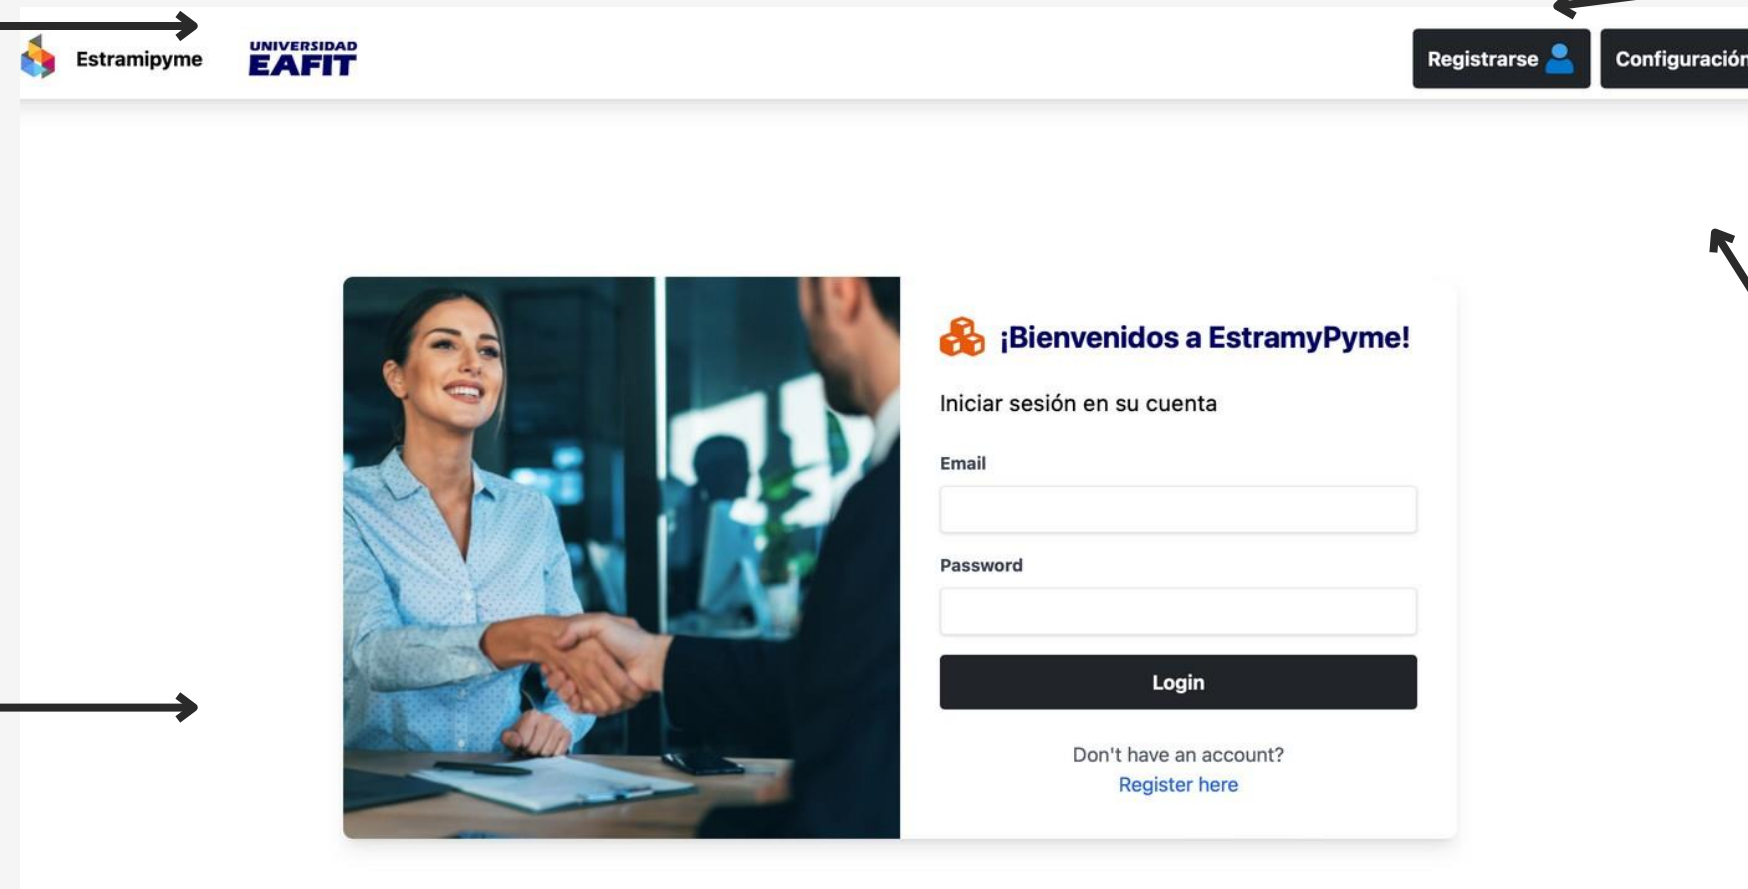

Iniciar sesión

Redirection to University page

Clicking here allows users to access the Eafit university page.

FORMULARIO DE INICIO DE SESIÓN

Users enter the requested data in this form to authenticate and access the company dashboard with their credentials..

The screenshot shows the login page for EstramyPyme. At the top left, there are logos for 'EstramyPyme' and 'UNIVERSIDAD EAFIT'. At the top right, there are two buttons: 'Registrarse' (with a user icon) and 'Configuración'. In the center, there is a login form titled '¡Bienvenidos a EstramyPyme!' with the subtitle 'Iniciar sesión en su cuenta'. The form contains fields for 'Email' and 'Password', a 'Login' button, and a link 'Don't have an account? Register here'. Annotations with arrows point to specific elements: one points from the 'Redirection to University page' text to the 'UNIVERSIDAD EAFIT' logo; another points from the 'FORMULARIO DE INICIO DE SESIÓN' text to the login form; a third points from the 'Register' text to the 'Registrarse' button; and a fourth points from the 'Configuration' text to the 'Configuración' button.

Register

Clicking on these buttons navigates to the login or register sections.

Configuration

Users can configure preferences, such as toggling between light and dark modes.

Company or User Dashboard

PROFILE VIEW

By clicking here I can access a section that shows me my profile which shows me information about what information I have on the platform.

Submit and View Test Status

These buttons allow users to either take a test or check its status.

LOG OFF

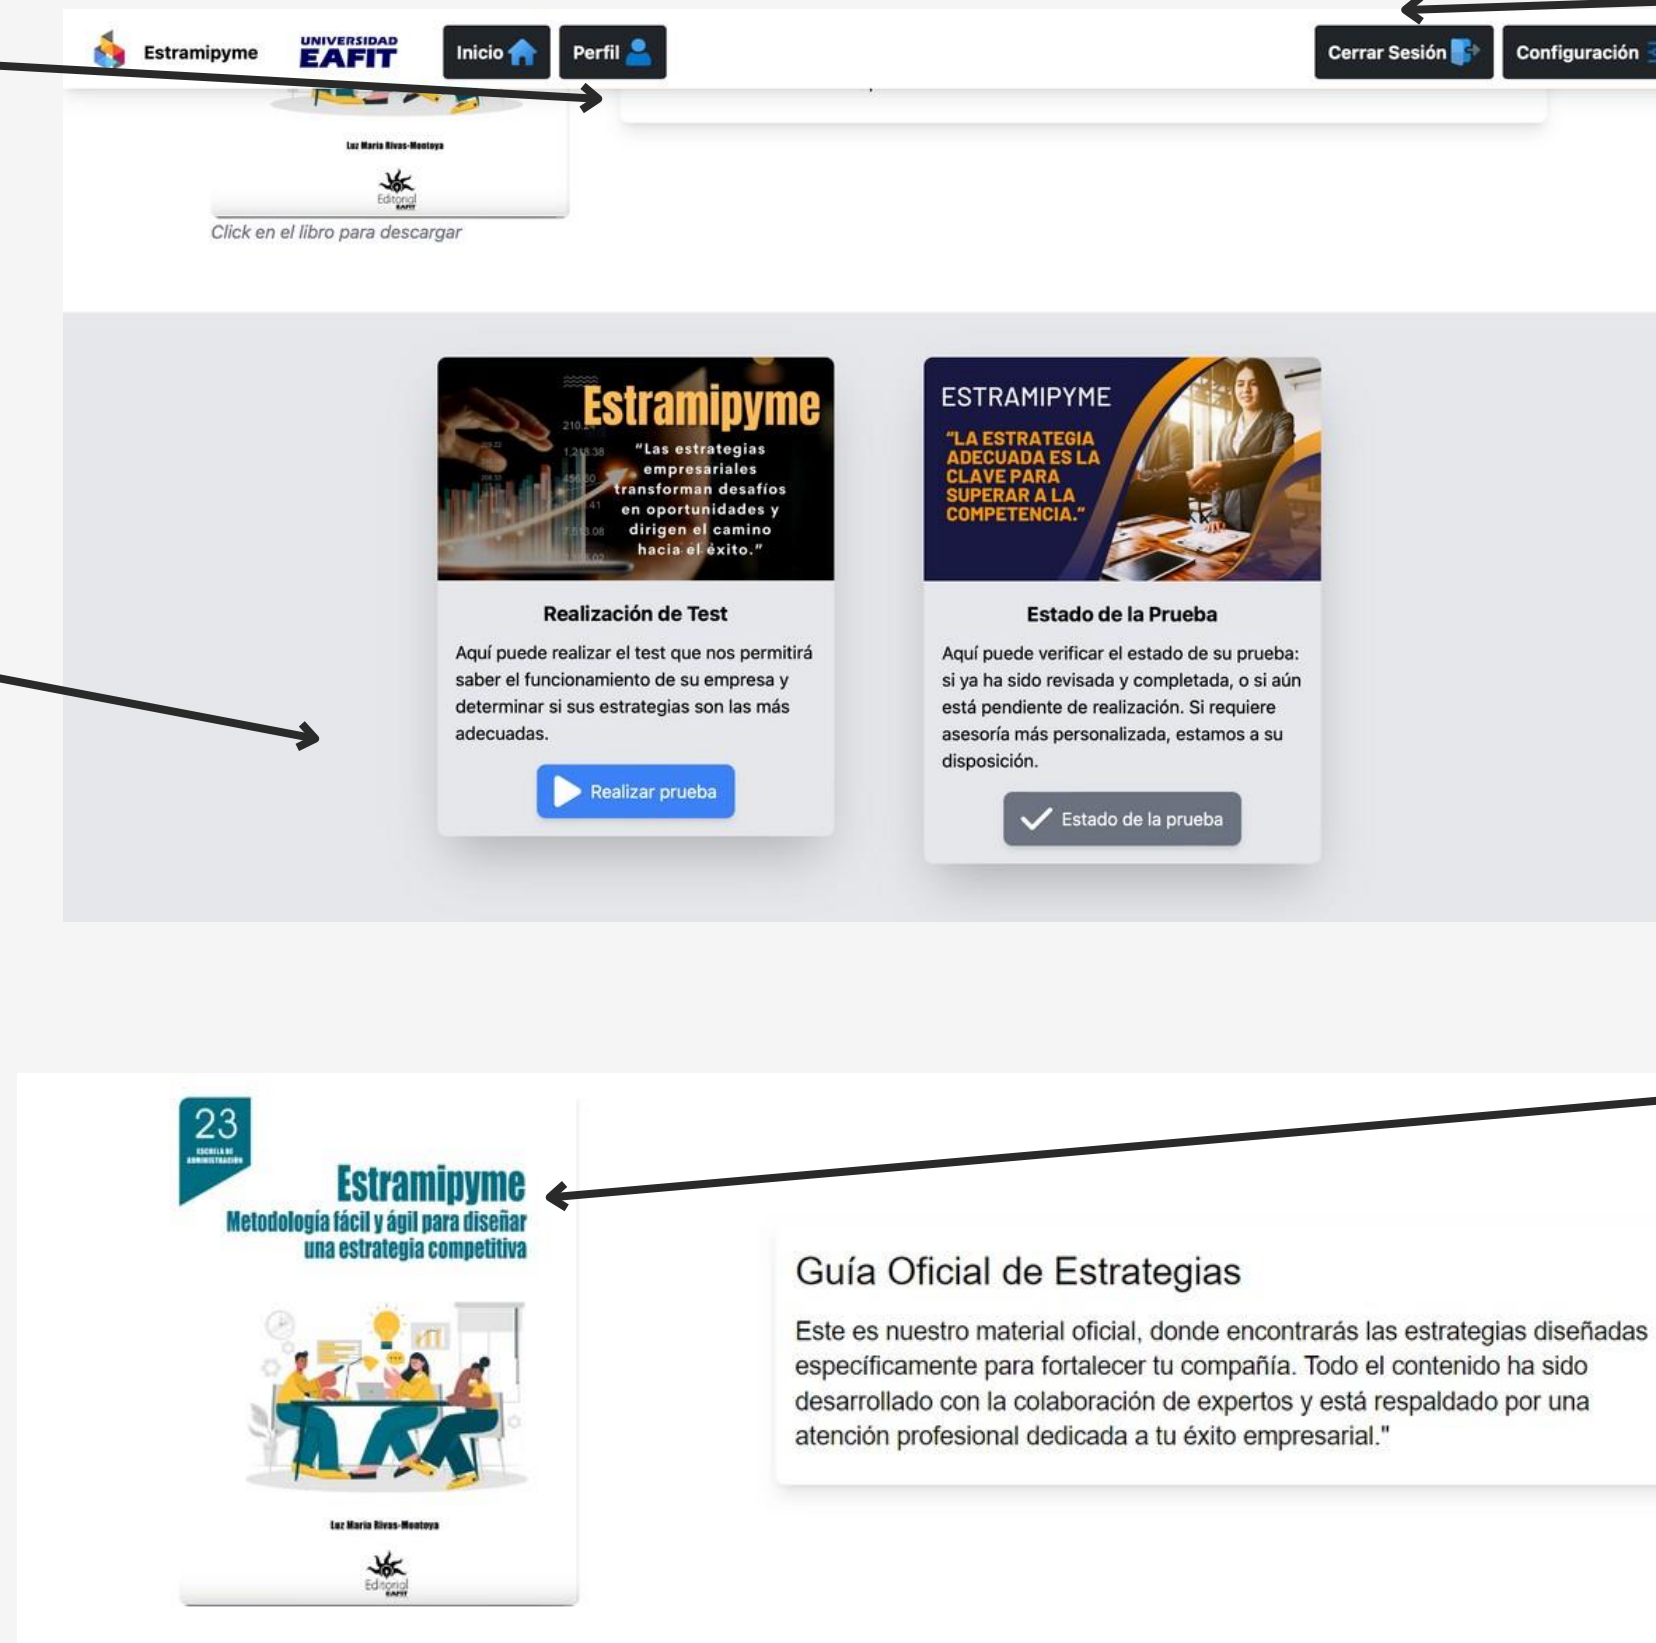

Clicking this button closes the current session.

Configuration

Users can configure preferences such as toggling between light and dark modes.

Access the Strategy Book

Clicking here provides access to the strategy book, a resource for improving business strategies.

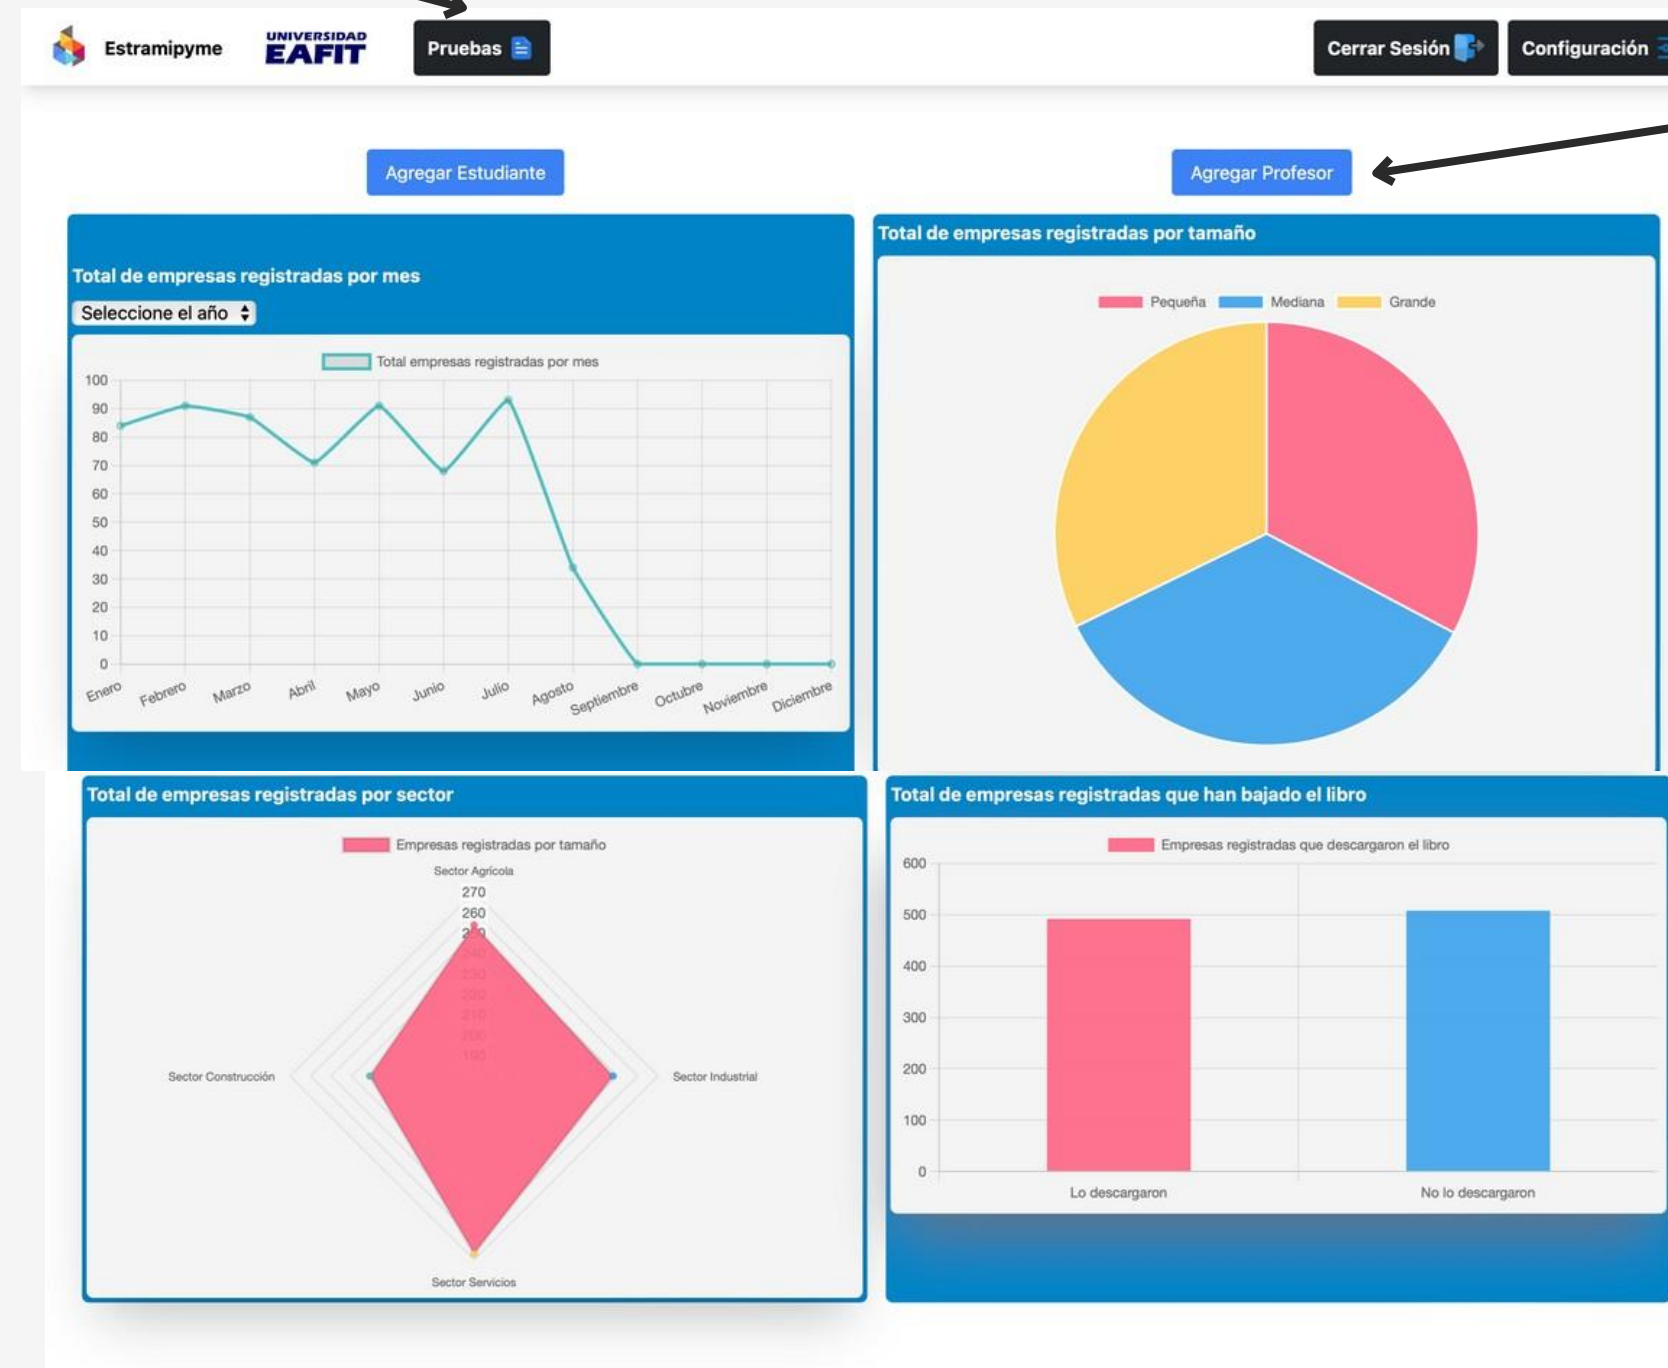

Dashboard Administrador

View Completed Tests

Clicking this button leads to a section displaying the tests completed by companies.

Graph Visualization

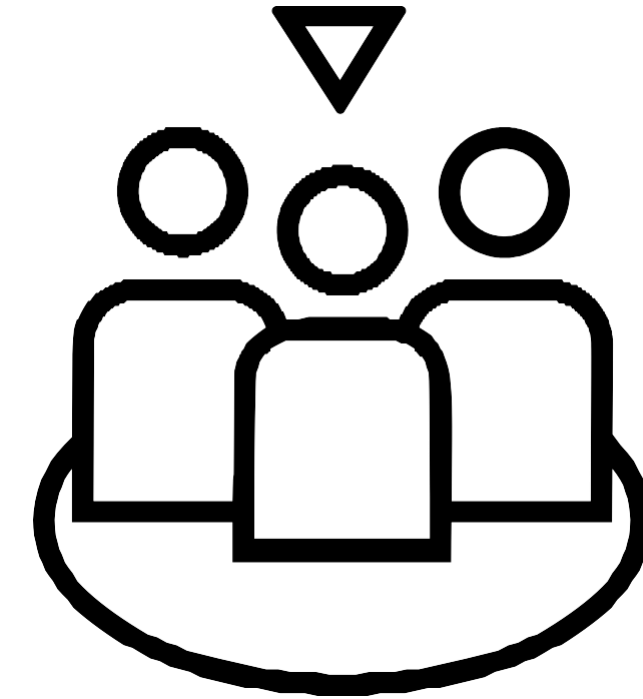

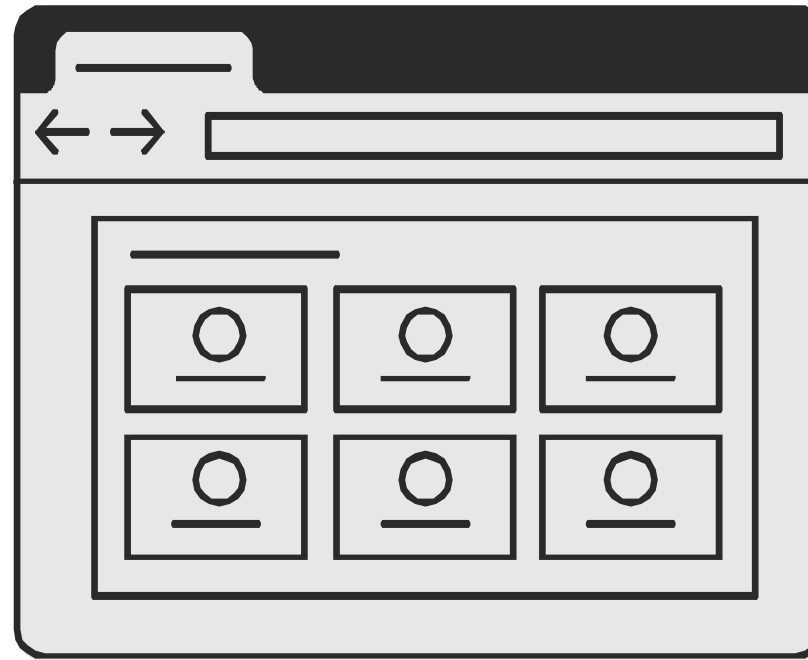

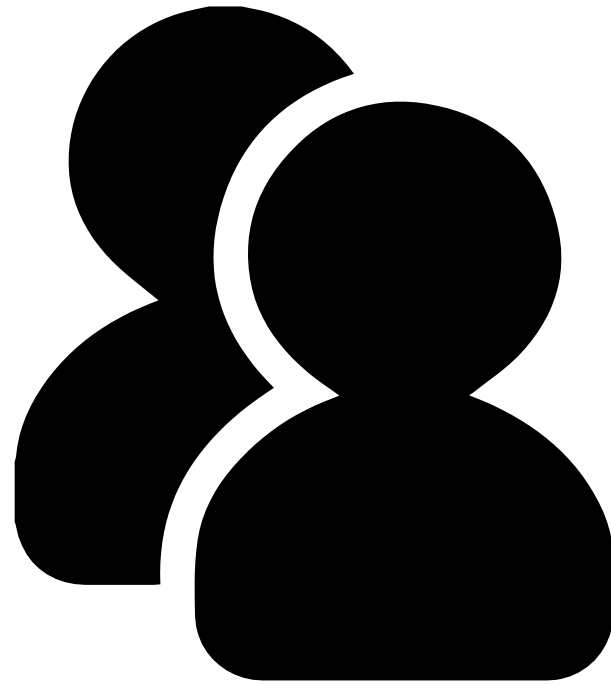

This section provides graphs displaying company information. Some graphs include intuitive filter selection options.

Add Student or Teacher

By clicking this button, a menu is displayed to add a student or teacher to a Project.

Types of Users

Company

The company acts as the client in this context and has access to the user dashboard. From there, it can conduct tests and view the results.

Administrator

The administrator has access to the admin dashboard, which allows analyzing information using graphs. They can also add students or teachers to business consulting projects.
